As a Unified Solution Provider, ACTi is aiming to offer a complete solution in both hardware and software for its customers. Aside from ACTi NVR Enterprise as a Server-Client IP Video Management Software, ACTi now introduces its brand new software service, ACTi CMS.

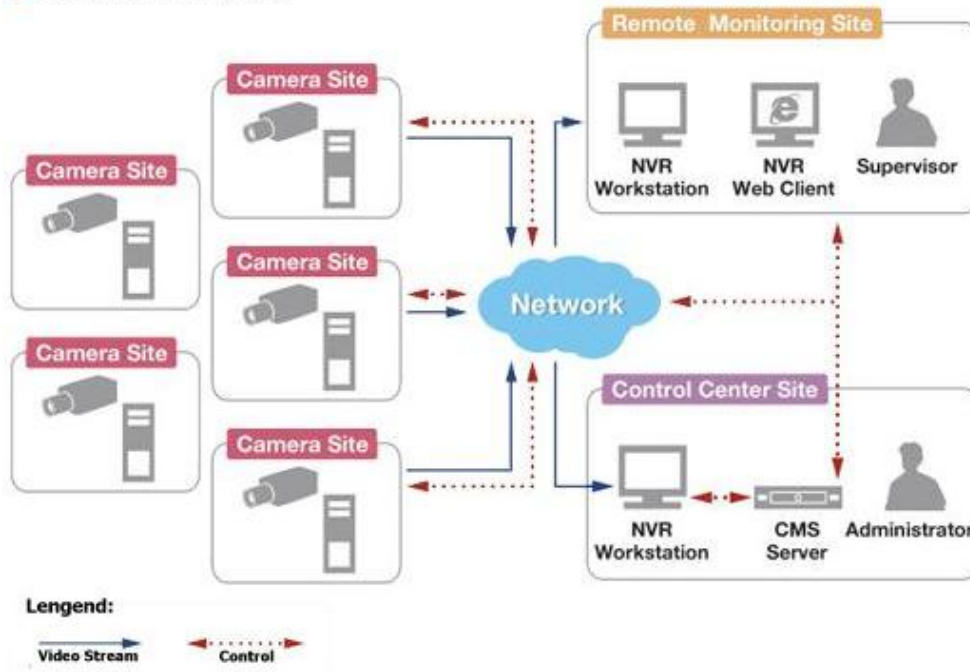

ACTi CMS provides central management functionality for multiple-site applications. It can support unlimited servers and channels, which means customers can now realize large scale or multi-site projects, such as airport, retail stores or metro systems. Moreover, ACTi CMS adopts the same user interface of ACTi NVR which allows users to perform the same functions with ease and familiarity. More features of ACTi CMS include:

- Centralized management
- Client-server architecture
- Support unlimited cameras, servers and users
- Manage all ACTi product line include ACTi NVR solution and Devices
- Remotely configure ACTi CMS/NVR/Device
- Seamless event handling with ACTi NVR solution
- Simultaneous live view for up to 64 channels with PTZ and joystick control from multiple NVR servers
- Support megapixel MPEG-4/H.264/MJPEG format
- Digital zoom on live view and playback mode
- Support motion detection and digital I/O event from hardware
- Search video clips by date, time and event via different NVR Enterprise servers
- Time-based search bar
- 4-channel synchronized playback via different NVR Enterprise servers
- eMap Manager

ACTi CMS provides centralization, flexibility and future expansion for projects in all vertical markets. You can enjoy more features with high price/performance ratio and one-stop shopping of ACTi Unified Solution. About ACTi

ACTi Corporation is the technology leader in IP surveillance, focusing on multiple security surveillance market segments. ACTi's extensive technology innovations in the development of JPEG/MPEG-4/H.264 has empowered ACTi's worldwide partners and customers to enjoy best quality video performances from VGA up to Megapixel resolution at minimum bandwidth. The core value of ACTi is the ability to develop, integrate and market complete end-to-end solutions for our clients in the IP surveillance market. ACTi's technology advancements enable complete solution offerings to cover all segments of the security market. Not only offering the IP surveillance hardware such as IP cameras and video servers, all ACTi products are bundled with free management software; in addition to the rich selection of management applications offered by leading Independent Software Vendors that support ACTi hardware.

ACTi partners with distributors, application developers worldwide; with flexible customization offerings to accommodate different business models. ACTi's commitment to sales, marketing and technical support will empower this innovative IP surveillance technology to be thoroughly optimized and appreciated by ACTi's strategic customers.
