Annual ISC West tradeshow is on its march in the coming March! ACTi, the excelled IP surveillance cameras and software provider, is planning to present you categories of high-tech innovation in 2010 ISCWest this spring, **from March 24th to 26th**.

As a leading maker in developing H.264/MPEG-4/MJPEG IP surveillance video solutions, ACTi always takes time and effort to upgrade its cameras and inclines to present customers in the market the high-level IP security devices. This year in ISC West, ACTi will attend to exhibit its state-of-art new-tech showcase, attempting to give the market a big surprise.

Greeting you in ISC West are two new technology showcases from ACTi. Our first showcase is a **1080p optical zoom module, with zoom capability up to 10x**. The user can enjoy the high resolution of 1080p in combination

with 10x optical zoom, to be able to see greater details and broaden application use.

The second showcase is a **720p optical zoom module, with optical zoom capability up to 35x**. This high optical zoom ratio offers the ability to accommodate various focal distances to fit different application requirements, while maintaining good video quality through optimized 3A algorithms. Both technologies showcases demonstrate auto focus ability, which offer users the benefit of simpler installation as there is no need for tedious focus adjustment on the camera or from a remote site.

We keenly invite you to visit our booth at **Booth No.6074** in ISCWest. To make an appointment with ACTi sales on the show site, please [click here](#) and our sales representative will contact you shortly. We guarantee you the newly-released innovation with eye-popped pleasure for your needs.

Just click [here](#) to get you the **FREE** pass to the show and we look forward to seeing you at ISCWest in Las Vegas!

[About ACTi](#)

ACTi Corporation is the technology leader in IP surveillance, focusing on multiple security surveillance market segments. ACTi's extensive technology innovations in the development of JPEG/MPEG-4/H.264 has empowered ACTi's worldwide partners and customers to enjoy best quality video performances from VGA up to Megapixel resolution at minimum bandwidth. The core value of ACTi is the ability to develop, integrate and market complete end-to-end solutions for our clients in the IP surveillance market. ACTi's technology advancements enable complete solution offerings to cover all segments of the security market. Not only offering the IP surveillance hardware such as IP cameras and video servers, all ACTi products are bundled with free management software; in addition to the rich selection of management applications offered by leading Independent Software Vendors that support ACTi hardware.

ACTi partners with distributors, application developers worldwide; with flexible customization offerings to accommodate different business models. ACTi's commitment to sales, marketing and technical support will empower this innovative IP surveillance technology to be thoroughly optimized and appreciated by ACTi's strategic customers.
