TCM-5601/5611 will appeal to installations that require excellent image quality, lowest bandwidth consumption, flexible focal length adjustment, and the best competitive price. Applications from indoor entrance, cash counters, building corridors, to outdoor gates and parking lots (with housing), TCM-5601/5611 fulfills the demand of a reliable and great price-performance solution.

ACTi TCM series are unique in their triple codec that H.264 optimizes bandwidth and storage use without compromising image quality, while MPEG4 and MJPEG are also available for more flexibility. Being Powered over Ethernet, the camera simplifies installation and cabling cost. In addition, the DI/DO feature enables various integrations such as intruder alarm, access control, and many other electronic security devices. With the mechanical IR cut

filter, TCM- 5611's day and night functionality provides clear picture under low light conditions.

Winning projects not only requires high quality hardware but also reliable software and project support. ACTi is well known in its total solution, which its full range camera line is unified with CMS server, NVR management software and Intelligent Video Server. Come talk to the sales manager in charge of your region, you will obtain the best support for your project win!

About ACTi

ACTi Corporation is the technology leader in IP surveillance, focusing on multiple security surveillance market segments. ACTi's extensive technology innovations in the development of JPEG/MPEG-4/H.264 has empowered ACTi's worldwide partners and customers to enjoy best quality video performances from VGA up to Megapixel resolution at minimum bandwidth. The core value of ACTi is the ability to develop, integrate and market complete end-to-end solutions for our clients in the IP surveillance market. ACTi's technology advancements enable complete solution offerings to cover all segments of the security market. Not only offering the IP surveillance hardware such as IP cameras and video servers, all ACTi products are bundled with free management software; in addition to the rich selection of management applications offered by leading Independent Software Vendors that support ACTi hardware.

ACTi partners with distributors, application developers worldwide; with flexible customization offerings to accommodate different business models. ACTi's commitment to sales, marketing and technical support will empower this innovative IP surveillance technology to be thoroughly optimized and appreciated by ACTi's strategic customers.
