ACTi Project Planner is a useful tool which helps you to plan any IP-based project effectively. To design a successful project, you may need to calculate various data which can be critical and intimidating.

Most projects come to System Integrators on drawings so the graphical representation of the Field of View is required. **ACTi provides Project Planner V2.0 version which comes with**

- Load Floor Plan background image from *.jpg
- Find the best **camera location** efficiently.
- Calculate precise camera lens **focal length** and **viewing angles** immediately
- Real-time **Projected View** and **Sample Screen** allow user to simulate the size of viewing object
- Check the **field of view** of each camera and find **blind spot** to increase the security level
- Export the floor plan drawings with camera positions and camera settings by *.jpg and MS Word, Excel. This supports customer completing their project document efficiently.

About ACTi

ACTi Corporation is the technology leader in IP surveillance, focusing on multiple security surveillance market segments. ACTi's extensive technology innovations in the development of JPEG/MPEG-4/H.264 has empowered ACTi's worldwide partners and customers to enjoy best quality video performances from VGA up to Megapixel resolution at minimum bandwidth. The core value of ACTi is the ability to develop, integrate and market complete end-to-end solutions for our clients in the IP surveillance market. ACTi's technology advancements enable complete solution offerings to cover all segments of the security market. Not only offering the IP surveillance hardware such as IP cameras and video servers, all ACTi products are bundled with free management software; in addition to the rich selection of management applications offered by leading Independent Software Vendors that support ACTi hardware.

ACTi partners with distributors, application developers worldwide; with flexible customization offerings to accommodate different business models. ACTi's commitment to sales, marketing and technical support will empower this innovative IP surveillance technology to be thoroughly optimized and appreciated by ACTi's strategic customers.
