

Ski La Parva Resort Uses ACTi IP Surveillance Solution for Security

Once again, ACTi's products have been implemented at another world famous location: the Ski La Parva Resort. La Parva Ski Resort is one of the most famous ski resorts in the Southern Hemisphere. Existing network infrastructure at the resort makes it a perfect match for IP video surveillance system.

The IP video surveillance system by ACTi's IP camera (CAM-5100MN) and recording software (Streaming Activator) has been designed, installed and setup by ACTi's partner in Chile, Comdiel. The system is now in service at Ski La Parva Resort's ticketing booth to monitor it and reinforce its security.

With seven IP cameras pointing at different locations, this IP video surveillance system covers the entire working area in the ticketing booth – facing both inside and outside to ensure recording and monitoring of all areas.

Because of ACTi's D1 resolution at 30fps MPEG-4 video that requires extraordinary low bandwidth, this system saves on recording space and provides high remote transmissibility while providing excellent real-time video.

About ACTi

ACTi is the leading product developer and manufacturer of MPEG-4 IP surveillance products and solutions. ACTi is able to deliver MPEG-4 ASP compliant video streams at Full D1 resolution and 30/25 frames per second. ACTi offers the most complete IP-based Surveillance product line and provides one-stop-shopping convenience for IP surveillance solutions including MPEG-4 IP camera, video server, transcoder, and NVR. ACTi also offers management application software and SDKs for solution integrations. ACTi is the best choice and most reliable partner in the IP surveillance market.
