

## Italy's Bari Soccer Stadium Chooses ACTi IP Surveillance Products to Boost Their Security System

ACTi's Video Server, SED-2100R, and Transcoder, SED-3200, has enabled Bari Soccer stadium in Italy to incorporate IP based CCTV systems. Incorporating with EL.MO's DVR, Matrices and monitoring solutions, the new system allows centralized control and high integration of different CCTV

systems. The use of wireless AP's also allows long distance transmission of video & control data, providing simple & cost effective solution over LAN environments.

The CCTV system includes 24 analog cameras in total: 6 pan-tilt cameras are installed around the playing field, the other 18 cameras are positioned in the car parks and inside the stadium.

The distance between the cameras and the control centre is considerable, so the integration of wireless AP's was the best solution rather than rigorous cabling.

The SED-2100R network video server along with a media converter have been installed for each camera. The video server transmits video signals and RS-485 data over the network. In the control centre, 24 pieces of SED-3200 network video transcoders have been installed. The decoders are connected to video distributors in order to transmit video signals to the dedicated monitor, the matrix and the DVR simultaneously. The control centre is equipped with three joystick keyboards for the security agents to display and pan tilt the desired cameras.

#### Why choose ACTi:

ACTi's MPEG-4 IP products provide D1 (720x576) resolution at 25 frames per second and utilize low bandwidth and storage size. The ability to provide a transparent RS-485 tunnel within ACTi's video servers & Transcoders provides ease of integration of various analog ptz cameras. Overall, this solution decreases significantly the installation costs of networking and increases the flexibility for the installation of monitors, DVRs and cameras.

#### **About ACTi**

ACTi is the leading product developer and manufacturer of MPEG-4 IP surveillance product solutions. ACTi is able to deliver MPEG-4 ASP compliant video streams at Full D1 resolution and 30/25 frames per second. ACTi offers the most complete IP CCTV product line and provides one-stop-shopping convenience for IP surveillance solutions including but not limited to MPEG-4 IP camera, video server, transcoder, and NVR. ACTi also offers application software and SDKs. ACTi is the best choice and most reliable partner in the IP surveillance market.

#### **About EL.MO.**

EL.MO. S.p.A., a young and dynamic company, for 30 years has been a point of reference as regard as innovation, technological development and products quality.

Today, it can be considered as the leading company in its sector thanks to a comprehensive range of CCTV, intrusion and fire detection, and access control systems. [www.elmo.it](http://www.elmo.it)
