## The outlets in Malaysia Use ACTi IP Surveillance Products To Decrease Loss and Increase Efficiency

ACTi empower Nextan, a system integrator in Singapore, successfully enhanced the security system for the outlet. They installed 125-channel surveillance sites in Malaysia.

The outlet is through out Malaysia from Northern states to Southern states and owned by Dynasum Sdn Bhd. They are the first privately owned company in Malaysia that introduces IP products in such scale to enhance their business operation. The company chooses ACTi's products video servers instead of the conventional DVR-based system because of its video quality and reliability.

The owner of outlet would like to do remote monitoring and remote recording in headquarter. They used existing analog dome cameras connecting to video server SED-2300Q in every chain store. The headquarter site could easily access live video of transactions from all stories through ACTi software, Streaming Activator.

ACTi products offer better video quality rather than DVR solution. Most importantly, it allows customers to do remote manage and monitor in

headquarter. IP Surveillance is a convenient and reliable system to secure their chain stores. Also IP surveillance helps them to save the cost for coaxial cabling construction. Therefore, ACTi is the best choice of offering IP Surveillance System.

“ACTi’s IP Quad Video Server is an economical and easy extension for remote monitoring and recording” said Ivy Lew, Sales Manager of Nextan.

### **About ACTi**

ACTi is the leading product developer and manufacturer of MPEG-4 IP surveillance product solutions. ACTi is able to deliver MPEG-4 ASP compliant video streams at Full D1 resolution and 30/25 frames per second. ACTi offers the most complete IP CCTV product line and provides one-stop-shopping convenience for IP surveillance solutions including but not limited to MPEG-4 IP camera, video server, transcoder, and NVR. ACTi also offers application software and SDKs. ACTi is the best choice and most reliable partner in the IP surveillance market. For more information, please go to [www.acti.com](http://www.acti.com)
