

ACTi Worked with Milestone to Empower The First City Monitoring Project in Poland

ACTi IP cameras and Milestone XprotectEnterprise were successfully installed in Wodzislaw Slaski, which is the first IP surveillance project for city monitoring. The installer was SUMA, a professional surveillance distributor in Poland. This project was for improving safety of citizen and reducing defect of road offences with the development of this city.

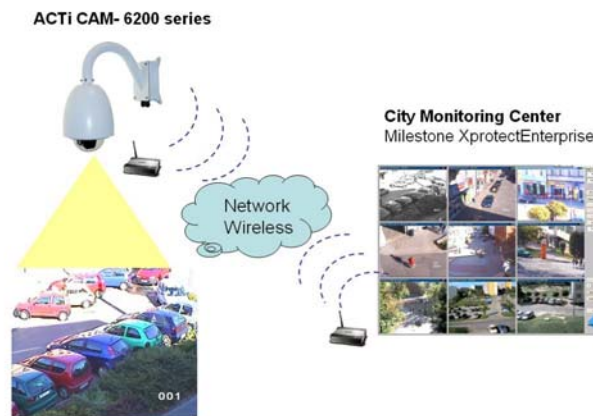

Because of critical bandwidth and good video quality demand, SUMA chose ACTi products as the best solution to fulfill the city requirements. The city decided to use wireless technology due to the distance problem (From camera sites to monitoring center is 300 – 1500m). However, the video quality should be as good as analogue solution. After managing and recording, the city officials are very happy with the deployment of ACTi IP cameras with Milestone software.

Moreover, ACTi MPEG-4 ASP compression technology can reduce the size of recording file. „Using ACTi products can reduce the requirements of disc spaces, which save the cost of storage size” said engineer Rafal Chmielewski, from SUMA.

There were 6 ACTi cameras installed in this project, which were IP speed domes (CAM-6610). Each ACTi IP camera worked well with wireless devices, so government officials are allowed to access the video under ID/ password authority everywhere.

About ACTi

ACTi is the leading product developer and manufacturer of MPEG-4 IP surveillance products and solutions. ACTi is able to deliver MPEG-4 ASP compliant video streams at Full D1 resolution and 30/25 frames per second. ACTi offers the most complete IP-based Surveillance product line and provides one-stop-shopping convenience for IP surveillance solutions including MPEG-4 IP camera, video server, transcoder, and NVR. ACTi also offers management application software and SDKs for solution integrations. ACTi is the best choice and most reliable partner in the IP surveillance market. For more information, please go to www.acti.com

About Milestone Systems A/S

Milestone is a globally leading developer of IP software for networked digital video surveillance. The XProtect® products are designed with open architecture, providing support for the widest choice in network video hardware connected to a LAN, WAN or the Internet. Milestone solutions are in operation on more than 90,000 cameras worldwide, across a wide spectrum of industries from retail to finance, education, production, transportation and government. Milestone Systems are sold through a channel of 170 partners in 55 countries. For more information about Milestone, please visit www.milestonesys.com

About SUMA

SUMA is a distributor specializing in delivering the newest technologies for video IP surveillance. It connects companies from CCTV and IT branches. SUMA operates via network of partners for whole Poland.
